Investment trusts are quoted companies listed on the London Stock Exchange. Their share price is determined by factors including demand, or lack of, which means that the shares may trade below (at a discount to) or above (at a premium to) the underlying net asset value.

In line with industry best practice, Net Asset Values (NAVs) are now shown that take into account the 'fair value' of debt. NAVs – namely available shareholders' funds divided by the number of shares in issue, with shareholders' funds calculated as the net value of all the company's assets having deducted liabilities – are now calculated after allowing for the valuation of debt at fair value or current market price, rather than at final repayment value. Most professional advisers and institutional investors already allow for fair value of debt when assessing NAV and discount information, so this change provides private investors with information which takes into account a more realistic impact of the cost of debt and thus a more realistic discount.

The Brunner Investment Trust PLC

Fund Managers' Review

October saw global equity markets dominated by macro economic events such as rising oil prices, falling commodity prices, and a falling US dollar, which combined to result in an unsettled month where no single theme could be clearly identified.

In terms of sectors, IT software was one of the best performers last month on the back of strong licensing figures from SAP and optimism on US market share gains for Sage, both holdings for the Trust.

On the negative side, concerns over the continued strength of China's economic growth and demand for commodities saw prices suffer sharp declines which caused Mining stocks to react negatively. As a consequence the Trust's major holding in this sector, BHP Billiton declined almost -5%.

Going forward we continue to monitor sector positions with a focus on the Oil and Commodity sectors, with the overall aim to maintain the Trust's focus on high quality, growth companies on modest valuations.

Changes in rates of exchange may cause the value of investments and the income from them to go down or up.

Fund Performance

Source: Russell/Mellon/Allianz Dresdner Asset Management. 31st October 99 to 29th October 04, Total Return, net income reinvested, calculation indexed. UK Sterling. Please remember that past performance is not necessarily a guide to future performance. The value of an investment and the income from it can fall as well as rise as a result of market or currency fluctuations and you may not get back the amount originally invested. This investment trust charges 70% of its annual management fee to the capital account and 30% to revenue. This could lead to a higher level of income but a lower capital return.

Standardised Past Performance

From to	01/10/99 30/09/00	01/10/00 30/09/01	01/10/01 30/09/02	01/10/02 30/09/03	01/10/03 30/09/04

These performance figures are produced for the purposes of these fact sheets and are intended for existing and potential investors. This performance table differs in its presentation from Fund Performance. It complies with the Financial Services Authority's regulations to enable investors to compare different products from different providers.

Trust Aim & Characteristics

To increase the Trust's total return above the benchmark index of 60% FTSE All-Share and 40% FT/S&P World Index (ex UK sterling adjusted) over the long term. This objective will be achieved by investing in UK and international securities and by using appropriate gearing to enhance returns. The strategy of the Trust is designed to meet the requirements of those seeking a single investment in a diversified and professionally managed portfolio.

*Brunner seeks to enhance returns for its shareholders through gearing, in the form of bank borrowings. Gearing can boost the Trust's returns when investments perform well, though losses can be magnified when investments do badly. You should be aware that this Trust may be subject to sudden and large falls in value and you could get back nothing at all.

Allianz Dresdner Asset Management is the marketing name of RCM (UK) Ltd., which is authorised and regulated by the Financial Services Authority. Issued by RCM (UK) Ltd. Registered office: 155 Bishopsgate, London, EC2M 3AD. Registered in England No. 2014586. Member of the Allianz Dresdner Asset Management Marketing Group. Member of the Allianz Group. Share Buybacks

The Trust is committed to repurchasing ordinary shares, where market conditions are suitable, in order to enhance shareholder value. To date, 11m shares have been repurchased.

History

The Brunner Investment Trust PLC was formed from the Brunner family's interest in the sale of Brunner, Mond & Co, the largest of the four companies which came to form ICI in 1926. The Trust has been managed by Allianz Dresdner Asset Management (formerly Kleinwort Benson and now part of the Allianz Group) since inception and shareholders include the Brunner family and a number of institutional investors as well as a large group of private shareholders.

Launch Date: 1927.

Wind-up Date: None.
